

Women on The Move

Issue 4

February 2004

The best way to measure our first year as an organization is to look around the room at this fundraiser. This is what many hours of meetings and a great group of members can do.

We have worked very hard to become successful and well recognized in the community.

Our membership is around 65, and we need to remember our goal for this year is 100. Even with the slow down in manufacturing, we feel as though that number is attainable.

We have an event calendar that is filled with tours and topics that should peak everyone's interest. If there is a topic you would like to see addressed, call Teresa Beach-Shelow or Ruth Bowden-Wilcox. They are always open to suggestions.

Teresa Beach-Shelow 282-7581
Ruth Bowden-Wilcox 639-7778

Don't forget our website. The information there is up to date and the photos of our events are great. We will be bringing our database on line soon.

**Women of Today's
MANUFACTURING**

Who was that great looking Santa??

Tour of Midwest Packaging was very interesting.

Teresa Beach-Shelow was a speaker for Women in Business luncheon for the Chamber.

Our golf outings are widely known for a real great time, so be sure to sign up this year. **TUESDAY AUGUST 17, 2004 At Silver Ridge.**

One of the most enjoyable events we had was the Autumn on Parade. Two days of fun, and the winning of first place was amazing. We will be doing the event again this fall. If you are at all interested in having a great time and getting to know each other in a purely social event, be sure to sign up when we start the planning. This is a great group of people, and the networking is so beneficial.
