

# Women on The Move

Issue 5

June 2004

We are now into summer. Our calendar has been filled with very interesting events. We all really enjoyed the tour of Harley Davidson. We had a bus filled with sleepy eyed people that left Farm & Fleet at 6:45 am.

The tour of Harley was very interesting, and then we were off to the Milwaukee School of Engineering. There were students busy at work and we were able to see the Rapid Prototyping in action. It was nice to see these young future engineers at work.

The lunch was at The WaterStreet Brewery. We were home by 3:15 and some headed home for a nap, and some diehards went to work. Our membership is at 71 now and we need to remember our goal for this year is 100.

If you know of anyone that would qualify, bring them to a meeting.

Don't forget our website. The information there is up to date and the photos of our events are great. We will be bringing our database on line soon.

Ruthann Gaston receives check from FMA for sponsorship of one week for our Manufacturing camp July 26-30th.

June's Tour of Harley-Davidson.

Ruth Bowden-Wilcox and Teresa Beach-Shelow trying out the Harley.

Our golf outings are widely known for a real great time, so be sure to sign up this year.

**TUESDAY  
AUGUST  
10, 2004**

**At Silver Ridge.**

This was our booth at the Manufacturing show at the MetroCenter. It was a huge success for us and the people who worked so hard on it. We're looking forward to next year.

Some of our most enjoyable times are at the end of a tour or meeting. We all seem to be able to eat a good meal and have great conversations. Good friends are fun to have.

**DON'T FORGET  
AUGUST 10TH.  
AT  
SILVER RIDGE  
GOLF COURSE.**
