Women of Today's MANUFACTURING_{nfp}

Greetings! 2010 is off to a great start with informative events. Our Program Committee did a terrific job bringing in great speakers, a fundraiser, and a tour!

We hope you were able to join us. Following are the highlights.

January Meeting – Franchesco's

Our guest speakers were Mark Tichgelaar - Director of Global Marketing, SPX Hydraulic Technologies, and Tim Schramm – V.P. of Human Resources, SPX Hydraulic Technologies.

Mr. Tichgelaar and Mr. Schramm spoke about the marketplace and where the manufacturing industry is headed for the year 2010.

February, Annual Silent Auction and Fundraiser

The February meeting was our annual fundraiser event and held at Mauh-Nah-Tee-See Country Club. We use the funds for college scholarships, continuing education for members, and manufacturing camps. This year we raised over \$4,325.00! WOTM extends their thanks to all the members and guests. Your generous contributions made this possible even though we are all experiencing tough economic downturns in our businesses and lives. Thanks to Kelli Harris and her committee for the work it takes to put this event together.

March Breakfast Tour – Superior Joining Technologies

Diane Simpson and the Program Committee decided to try something different and conducted a breakfast tour. Teresa and Thom Shelow, owners of Superior Joining Technologies, hosted the March Meeting. We had a nice turnout. Participants enjoyed breakfast sponsored by Blackhawk Bank and got to tour the facility. One member commented that the laser demonstration was a spectacular show! What did you think about a morning tour? We would appreciate your feedback.
